

Product name: 3rd Note SFX Pack - Wonder FX

Introduction:

This is a sound effect package, unveiled by 3<sup>rd</sup> Note, Korea's game audio producer, for the first time to global unity developers.

This is an asset bundle with 8bit sound style that you may have experienced in traditional console game devices such as "NES (a.k.a Famicom)", "Mega Drive" and "Game Boy."

We present UI effects, character sound and motion graphic sound effects as an inspiring idea for your games. All of them are offered for free!

Please visit [www.3rdnote.co.kr](http://www.3rdnote.co.kr) for more works.

We will be delighted to offer you our works on any of your demand in addition to library sound.

Please send us an email at [business@3rdnote.co.kr](mailto:business@3rdnote.co.kr).

You can experience our unique consulting, affordable price and our unrivaled game sound asset!

3<sup>rd</sup> Note is right beside you as your sound team you have ever dreamed of.

3<sup>rd</sup> Note, Creative Sound for You.
